2. [] has suggested that a check be made with the German Military Documents Section at the Pentagon Building on one of the earlier reports of this type. We should find out whether such material is being shipped to the War Department or held in the theater indefinitely. Some of the items would be of distinct value to CIA, and should be exploited if they have arrived at GMDS. [] maintain direct liaison with [] of the Occupational Intelligence Section, ECIC, and could probably obtain the necessary information by telecon from Frankfurt.
